Topic : Numbers 1 - 20

1. Play "Pass the Parcel Numbers 1-10"

The teacher asks students to count the apple and guess how to pronounce it. They will sing a song numbers 1 – 10 and everybody plays the parcel around the circle until the song stops. The person who holds the parcel when the song stops, picks the flashcards and counts the apple.

2. Play the whisper games numbers 11 – 20

In this activity, the teacher divides the students into 4 groups. The teacher whispers the numbers 11-20 randomly to the group members who are standing in the first row. Then, the person standing in the last row takes the flashcard according to the number mentioned and says it.

3. Play jump games

In this activity, the teacher provides big flashcards (A4). The students jump on it based on the teacher's instruction. The flashcards include 1 – 20. The teacher will say "okay kids, let's find number 10". Then, students jump to the number 10. It will be divided into some groups. Each group consists of 4 students. When the students jump, their group says the number louder.

4. Match the number

The teacher gives the students a worksheet about numbers 1 – 20 as homework. In this worksheet, students count the number of pictures and then match them with the correct numbers.
