Assessment

Topic: Rooms of a House

1. Guess the picture with Flashcard

This activity is carried out to determine the extent to which students have understood and know the name of the room at a house according to the song that has been sung in the previous activity. I showed the pictures one by one and then the students guessed the name of the room.

2. Objects in My House

In this activity, students in groups decorate their house by pasting pictures of household objects according to the room. For example, attach a picture of a bed in the bedroom. From this activity, I can see whether they are able to know the location of the object according to the room or not.

3. Matching picture

Students will be given a question sheet containing pictures. Then from several answer choices, students choose the correct answer according to the picture. For example, there is a photo of a bathroom, the answer choices are a bathroom and a living room. Then the students circled the correct answer, the bathroom.
