Lesson Procedure :

1. Warm-up and maintenance
 - Greeting
The teacher greets students and asks for their condition. Then, the teacher checks students' attendance to make sure that everyone is present. Also, in this part the teacher should deliver positive energy to students and lighten up the mood. After that, the teacher leads students to pray before starting the lesson.
 - Introduction
Introduction here used to introduce the topic, which is toys, to students. The teacher starts by asking students whether they have toys or not, then what kind of toys that they like, and etc.
2. Learning and practice
 - Listen and sing "Toy Song - Educational Children Song - Learning English for Kids"
The teacher uses a laptop, projector, and speaker to play the song and lead students to listen and sing the song together.
 - Play "Shout it Out"

Using flashcards that had been prepared before the class, the teacher show it one by one and asked students to shout the name of the toy that showed in the flashcard out loud.

- Do the matching worksheet

The teacher distributes the matching worksheet to students and asks them to do it individually. After students have done the worksheet, the teacher guides students to check their own work.

- Coloring pictures

The teacher asks students to choose a toy that they like (doll, car, robot, or yoyo), then the teacher give them a coloring page based on the toy that they chose and asks students to color it using crayon.

3. Wrap-up and goodbye

- Presenting students coloring result

The teacher chooses randomly or asks for a volunteer to present their coloring result in front of the class.

- Assign homework

Before saying goodbye to students, the teacher distributes the fill-in worksheet to students as their homework assignment.

- Goodbye

The teacher closes the class by asking students' feelings through the class and their experience. After that, leads students again to pray to end the class.
