Lesson Procedure		
	Activity	Teacher' Role
<b>Warm Up</b>	Greeting the students	The teacher greets the students: "Assalamu'alaikum Wr. Wb" and "Good morning student!", "How are you today?"
	Gaining students' attention with singing a song	The teacher gains students' attention by playing a video from youtube about 3 magic words. The video was played twice, the second time the students were invited to sing along while clapping their hands.  "Everyone, look at what Miss Sabrina has. Interesting video, yeayy!" Who likes to sing? Please raise your hand. Okay, I see many of you like to sing, so let's sing together."
<b>Main Activity</b>	Delivering the material uses the emoji fan	The teacher explains what manners are and how to be polite when speaking. Explains what magic words (Please, Thank you, and Sorry) are and when it is appropriate to say them. The teacher uses media such as an emoji fan with the 3 magic words written on it.
	Drilling vocabulary and inviting students to repeat the instruction.	The teachers repeat the explanation about 3 magic words by drilling and invite students to repeat the instruction.
	Asking the student how to say the 3 magic words to a friend	The teacher asks questions to recall what was explained earlier and asks the students to practice it to a friend.
	Study case game	The teacher gives an example of a case where students have to guess what word is suitable to be said in the case using the emoji fan.
<b>Wrap Up</b>	Giving feedback	After the students have successfully practiced, the teacher gives various feedback in the form of (good, excellent, great, etc) signs that the students have done the right thing.

	Summarizing	Ask one student to come in front of the class to review what they have learned today.
	Closing	The teachers gives a closing statement
